FROM the first home-drawn McLaughlin vehicles to the new 1924 McLaughlin-Buick cars across a far cry, but the lessons learned in these early days are in measure responsible for the present popularity of "Canada's Standard Car."

Rough roads were the rule in the early twenties and they dictated the McLaughlin policy "One grade only and that the best."

Today, though the automobile has superseded the horse and carriage, though poor roads are now the exception to the rule, still the same enduring quality is built into the McLaughlin products. But, to this quality have been added the sound engineering

principles of Buick—the vast experience and facilities of General Motors.

So the McLaughlin-Buick, not only is an honorable record of past achievement, but also is to present mechanical excellence, has earned its title of "Canada's Standard Car." And the power upon which progressed in first vintage lamps McLaughlin-Buick is the foundation of every worthwhile advance made in motor-car construction or design.

This new blood energy, freshly purified, from deep and layers, with all its marvelous germ-killing, uplifting powers brings to sick, pain-

ridden tissues just what they need to heal them.

If the pain is rheumatic, it means that disease pressure attacking the joints and muscles. In the tide of pain, new blood that is brought straight to the affected spot when you apply Sloan's, are millions of germ destroyers. So when you send this precious blood supply to the place where the germ are, you also send the very forces that alone have the power to destroy them.

If the pain is due to over-exercise, to a sprain or a bad bruise—it is because muscle fibers have been stretched to the point of actual injury. The damage must be repaired. The blood supplies the materials out of which the new tissue must be built up—and it works away the "lactic acid" produced by over-exercise.

This is the scientifically correct way to relieve pain. It doesn't just deaden the nerves. It gives your own natural body defenses the aid they need to drive out the cause of pain.

Don't wait until you are in actual need. Get a bottle of Sloan's this very day, and have it on hand—in all climates. Just apply it—no rubbing or massage. Immediately you feel a gentle warmth—then a pleasant tingling of the skin—then almost magically, relief from pain. There is no burning, no blistering, only quick, lasting relief.

So, whether you wish to keep Sloan's Liniment in your home or to take it with you on your travels, it is the best remedy for rheumatism, and all over the world and recommended by doctors everywhere.
